Rev. Sheldon Jackson.

Dear Bro.

I am glad you can give us Sunday morning as well as evenings through February, I hoped.

I will write you of appointments soon.

Can you address the members of Memorial church, Friday, Feb. 10th at their "monthly concert for prayer for Missions"?

Also the Womans Missionary Society of the Westminster church Monday afternoon Feb. 13th?

Please drop me a card informing me if this will be agreeable to you.

I dislike to ask you to speak before small gatherings of ladies, but it seems necessary to keep up the interest in home missions in this way, but

please write me frankly if you think your time & energies would be better employed in some other field of labor.

I would like to hear from you by the last part of this week, & have your coming to Memorial church announced from the pulpit Sunday morning.

Always consider my house 972 Augusta Ave. your hotel in Brooklyn, when it is more convenient for you to remain over night here, or at any other times.

Very truly yours,
Mary E. Jamieson.

Dear Brethren:

The Board of Home Missions have asked the Government for a dilapidated public building at Sitka Alaska for the use of an Indian Training School; and also for an appropriation for Schools among the Indians of Alaska.

Believing that these objects are for the furtherance of "Indian Rights" we earnestly ask you to use your influence for these objects.

The Rev Sheldon Jackson D.D. can give you all necessary information.

Dear Dr

Since closing the other letter Mr Young has been here. He had received money from the Board for the Home debts. Said among the first he wanted to pay me. I told him you had let me have $4 $. on that bill. But he said as he had included that in his account he had sent to the Board that he would much prefer to pay me & then I could write on to you & have it deducted from my salary for next Quarter. The next Quarter will not be due until May 1st. I will write to Dr Kendall when I send my report about the matter. I trust it will

satisfactory to you to arrange it in this way. It takes the form of a loan from you for which I am much obliged. As I am very short of money it helps me to get this from Mr Young.

Dear Brother

I have been writing for two weeks trying to catch up with my correspondence, Yesterday the "Revenue Cutter Wolcot came in. Col Ashford returned from below on the Wolcot. He got his papers at Port Townsend, among other papers he had his "Presbyterian Home Missions" It is a very nice Paper. But I feel a little distressed about it. It will not take the place of the dear old "Rocky Mountain Pres-

Syrian" I will not be
satisfactory to the Wom-
en's Societies & Mission
Bands. Because I think
from the present num-
ber that it is going to
be so high toned to
publish the common-
place letters & little
items sent on by our
missionaries in the differ-
ent fields. I presume
my Christmas letter will
not be published. If
not I will be much
obliged if you will
return it to me. I
care nothing about
it only a great many
ladies had written
to me asking for
a description of our
Christmas festivities-
& as it was impossi-

ble for me to write to them all - I refered them to my letter which would be published in your paper. We are all unusually anxious for the Steamer. Especially Miss Lenbar! I just anxious to hear from You. To know what You are going to do. & where You are going to be. Mr Chapman is here. He came over a few days ago. & will remain until the Steamer comes in. No doubt he will write to You. If has not already done so. I think he has made a very creditable beginning at Hydah. He is stopping at Mr Young's There is a young man

here sent up by the N. W. Trading company to go to Hydah to establish a fishery - & make oil. From what I have seen of him I dont think he will advance the Spiritual interests of the Indians; But he says his wife who is in New York is a Christian & a Presbyterian.

Tis 9th Your short note of Jan 12th was received day before Yesterday. Glad to know we are not forgotten. Hope you will find time before long to write us a long letter. One of our family at least was disappointed that we had no arrivals this Steamer. Where are you going to have your family live. Miss Smiles in kind regards.

Very Sincerely
A. R. McFarland.

Department of the Interior,
BUREAU OF EDUCATION,
Washington, February 4, 1882.

The Honorable
The Secretary of the Interior,

Sir:

My attention is called to the provisions of the law determining the purpose and duties of this office, which provides that it shall "collect statistics and facts showing the condition and progress of education in the several States and Territories, and to diffuse such information respecting the organization and management of schools and school-systems and methods of teaching, as shall aid the people of the United States in the establishment and maintenance of efficient school-systems, and otherwise promote the cause of education through-

out the country"; and it is affirmed that I have not yet made any specific recommendation with regard to education in Alaska. I cannot claim to be ignorant of the fact that there is no law either for the protection of life or property, or for the establishment of schools, in that Territory; nor would I be among those who are indifferent to facts reflecting so unfavorably upon us as a people. I have sought diligently to gather all information in regard to the education of the children of Alaskans, as will be seen by reference to the several reports of this office. Prior to the purchase of Alaska, the Russian government had schools in portions of that country. When it was transferred to the United States those schools were generally discontinued, and the entire Territory, with few exceptions, has been left without any means of education. From the Census of 1880, we learn that there

are about thirty thousand people in Alaska, and of these it is believed there are about ten thousand children or young people who ought to have some school priveleges.

With regard to this people it may be observed (1) that they are docile, peaceful, and have here and there some knowledge of useful industries; are apt in the mechanical arts, and anxious for instruction. (2) They are a self-supporting people, needing no annuities, clothing or rations from the government, but do need teachers that they cannot procure for themselves. These teachers should instruct them not only in letters, but in the arts of civilized life and the duties of American citizenship. (3) If given an opportunity for this kind of instruction for a few years they would, it is believed, make good progress in throwing off tribal relations, and in preparation to become an

integral portion of the American people, thus contributing to the common wealth and prosperity of the country.

(4) It is well known that civilization in approaching an untutored people may be their destruction by sending its vices before its virtues. It is equally well known that noxious weeds spring up spontaneously where useful plants must be cultivated, and that not neglect but painstaking care is necessary to the improvement of the human mind. The people of Alaska having received some measure of aid from Russian government, have expected the same from the United States. The natives, already to a limited extent demoralized by the introduction of intemperance and disease, it is thought would, by the introduction of schools, be prepared better to resist these evils and stand a far better chance to be a permanent and prosperous race.

(5) The development of the fishing interests, the discovery of gold, and the increase of commerce in that region, are now calling public attention to it, and the time seems to have arrived when school privileges should be immediately provided. In 1870, Congress appropriated fifty thousand dollars ($50,000.) for educational purposes in Alaska which, on account of difficulties of administration at that time, was not expended there. This amount could now be expended there, I am sure, with most satisfactory results.

In accordance, therefore, with these considerations, and in order not to come short of any duty required of me by law, I have the honor to recommend that Congress be requested to appropriate fifty thousand dollars ($50,000.) for the establishment and maintenance of schools for instruction in letters and industry at

such points in Alaska as shall be designated by the Hon. Secretary of the Interior.

I have the honor to be,
Very respectfully,
Your obedient servant,
(signed) John Eaton.
Commissioner.

Rev. Sheldon Jackson D.D.

Dear Sir

Would you please inform me if you are still Superintendent of Missions for New Mexico. I sometimes feel as if I would like to give up this work to other hands. Some new arrangements will have to be made at least, and I hardly know how to get at the matter. We wanted to go home in march for a short vacation, but Dr. J. is off to Washington & I fear I can get nothing done. Mrs. S. Is an excellent teacher and can manage Indians splendidly, but by fall coming she will have to quit teaching entirely. If some good arrangement cannot be made for help her, I would like to quit next fall. I cannot bear to think of leaving the dear Children of Jemez, but others

could teach them now in school and it seems that the Government dont realy want religion taught to them. What do you think the Board would do for me if I were to resign the mission proper at Jemez. Would they allow me to work among Mexicans and Americans anywhere in this Country or would they just let me go? It is just impossible for one man to attend to the Indian work under the Government, and attend to the Mexican work also. Then I think you know that there was great objection made even to my ordination, and it seems that the Government has never been willing to recognize the religious part of the business at Jemez. Among all our difficulties here this has discouraged me most. Were I just a missionary of the Bd. here I would never think of quitting yet. This is a grand field here and promises well some time.

Dear Doctor:

I suppose you will have seen, by this time, Petroff's article in the Int.l Review for Feby, & if so will be justly indignant at its statements. I happen to know (I think) the "true inwardness" of Mr Petroff, on the Alaska question, & if you desire it, I will write a kind of an answer to his abuse, for publication in any paper or periodical

you may select. I would not care to do so for a week or two yet, under my own name, as the crisis of both the Alaska cases here (Delegate & Civil Govt) will be reached within that time. Still I would do so, irrespective of consequences, if you think it necessary or specially desire it. — But I would fear, if it were done before the Bills are safely through, an insidious but more determined effort to defeat them than this condemning by faint praise has been. By the

way, the proverb of glass houses would apply here. He knows as well that the area of S.E. Alaska is 3 times what he states it at, as he does that the Western part, (the "bulk" as he calls it), is all that the revenue cutters have, as a general thing, ever been regularly sent to. - But I have no time to write about it here. - I have let the members of the Sub Com^ee on Alaska (Territorial Com^ee) one of whom I found with P's article, know the secret of his assertions, & shall take care of your reputation before them, at least. Think of

what I offer, & call on me if you think it advisable, & not calculated to hurt me here - for I must not make any new enemies, unless necessary - & then I care not.

Time slipped faster than I knew, & Mrs B, & myself were both sick - besides horrible weather - So we called on you & the very morning after you left -

Please state how much has already been promised and I think we can assure you of the rest. Dr Ludlow's people are roused to interest in Home Missions, and will I think do more for us hereafter. And now will you fix the dates when you can address the Greenpoint ch. (Rev. W. Taylor's) the Gates Ave. (Rev W. Bridges) and the Fort Green, church (Rev. Dr. McClelland's). They are all asking to hear from you, Dr McCollough and Dr Cuyler also but they will fix their own time. With glad sympathy yours Mary E. James

My dear Brother

I am engaged for a meeting in Steinway Hall on the evening of the 20th and cannot change.

Besides I am too tired in Washington to return with for another public meeting. I went for the Y.M.C.A. a fortnight after we were there.

Yours truly

My Dear Mr Harris:

Allow me to introduce to you Rev Dr. Sheldon Jackson, Superintendent of the Home missionary work of our Church in the North West.

Dr Jackson is cognizant, as perhaps no other man is, of the condition and needs of Alaska, Utah and the other important territories of the

United States in that region.
You will find him able and
willing to give you any
information you may desire
with regard to them, and
an acquaintance with
you will doubtless aid him
in the important work he
has in contemplation
for that whole section.

Very truly yours,

Joseph T. Kelly.

Dear Bro. Jackson

After such a long Experience at the "front" I am glad to know that you are about to go "into garrison" for a change.

It will be well for you to humor your roving habits for awhile however in making short trips, otherwise you may become discontented & rush off to Alaska or Mexico before you are fairly Established.

Last week I understand you made a trip to Harrisburg. That was well & now I have another excursion for you.

You have never visited Danville & we want you to be present with us at our [illegible] anniversary March 5th.

On Saturday preceding we are to have a little exercise in connection with the opening of the Mite boxes in the Sab[illegible]

and as the children all know Mr Conn through "Alaska" (which is in the Library) & through other sources they are anxious to see your face. On Sab. evening you can talk to the Ladies & on Mon. morning see you can choose whatever theme you prefer.

Aside from the cause itself which needs your presence here we want to see you & Mrs Jackson in our home, and renew the very pleasant acquaintance & fellowship of former days. If you have a pass over the whole or part of way use it. If not we will pay your way. We do hope you can bring Mrs Jackson with you. Mrs S is quite well & has set her heart on having you with at this time. Please answer if convenient by return mail

We had some very interesting services last month as a result of which 28 united with our church 24 on profession of faith (18 from Sab School)

The anniversaries of the Home & Foreign Societies come together with us. It is only a little over a year since our H.M. Society was organized. Since that time our young member Miss Kate Reed has gone to Tokio as missionary

teacher and we are doing all we can to assist in her support. If you come via Harrisburg & prefer a night ride you can leave New York in evening (7 Friday) & reach Danville for breakfast at 7 A.M. Saturday. This will give you all day with us. or you can start Friday Morning & get here at 6.30 P.M. or you can leave (if mid summer) Saturday Morning & come via Reading Road reaching Danville at 4 P.M. (or by Harrisburg at 6.30)

I suppose Daisy & Bessie are young ladies now. We hope to have a visit from them before long. They could easily run up here on their way to or from Carlisle.

With all love we send best wishes.

Cordially yours

R L Steuart

My dear Brother,

I am glad to be able to report Mr. Fleming in full charge; & that we expect Mr. Merritt to leave here day after tomorrow. Mr. Sullivan requested that he be allowed to remain a few days to complete his accounts & papers, & Merritt expects to have them completed tomorrow. Mr. Fleming has made a candid report of the condition of the buildings here, & requested permission to make the necessary improvements, but it will require two months or more at the nearest calculations. Mr. Fleming will do everything he can to hasten matters, but he can do nothing without authority, & the Cambler has to be drawn from Defiance after receiving authority. I have wanted myself, however, to write you upon another subject in particular. This morning

one of the Mcguires came to me
brother & asked him to take his son
- aged 8 or 9 years - on East to school,
the little boy also asking to go. This
is the first favorable expression, we
have ever had from any of them & to
my brother thinks that several boys &
perhaps one or two girls could be
secured if the effort is made soon.
Have you still permission to take some
of these children to Carlisle? If not could
you secure an order soon? I thought
that if you were coming out this way
soon, you might hasten your trip.
We feel it very important to get some
of our children East as soon as it can
be accomplished as this will be a bound
to civilization. Of course there is a
possibility that they would back out when
it came to going with a stranger, & if
you have no other duties to call you here
it might be better for me to take them
East. I only suggest this, as an expedient

not that I desire to go, for although I would be glad of such a chance in a year or two after our school is in a flourishing condition, at present it would give me but little pleasure, as I should have to return immediately, not even stopping to visit my relatives, as the condition of affairs here require my constant attention. I think, however, that they would be more likely to go with me, & for the sake of getting them there I would go. Possibly they might back out anyhow when the time comes, but we are very hopeful that they will go if given an early opportunity, before planting time. Should it be thought best for me to go, you must give me all necessary instructions, & if possible I would like to take one or two of the older people with me. If the way cannot be opened for taking them to Carlyle, can they be taken to Allingsworth & if so could I be instructed to take

there - not there; & would my expenses be paid? We much prefer that they go East; but it is wise to get them away from here, as fast as they will go, if no farther than Albuquerque.

If you come yourself let us know as soon as possible when we shall expect you, & come by Winslow, as we now have communication with that point.

If I am to go be sure to give explicit instructions & say also what is the smallest number that I would be permitted to accompany.

The boy who desires especially to go, is the brightest that has been in school, & has attended very regularly. Either there or there I shall hope to see you without long delay, & there is much to talk of.

I am anxious every mail to hear from the Board, & also from the Ladies Soc. How soon can I expect the letter & you, on the Mission Board.

To Children. I think it is nothing more than is due me that my feelings in the matter should be considered a little. I trust the matter will be adjusted. I would like to write to you and some other things but I must let them till next time. Much love to Mrs Parker & the Girls. By the way when are you going to have your family here?

I understand Shelton has had those names changed back to the Indian names. I remain the Austins have moved the boys home again.

Dear Dr. Jackson,

I propose to start the last of April for the Pacific Coast to be gone about three months, and want to see and get as much information as I can about the West. Home Mission field, particularly its more important and destitute sections. I hope thereby to ~~make~~ extend my Home Miss. Education a little, by personal observation, and to return qualified to do more for the work among our students —

Now it occurred to me that you'd perhaps give me hints & suggestions that would enable me to make the best of my opportunities.

Do you regard travelling from Denver South to Santa Fe, and to the Mexican frontier and thence across to the California coast sufficiently safe — to warrant my taking that route to San Francisco. when I have with me in charge two boys under 16 years of age. (11 or 12 to 16)? I am desirous to take that route, but a letter in the last Evangelist makes me doubt if I ought to take the boys that route. I presume however I would not leave the railway much, except there were some special object to be gained

thereby.

If that route is available (either via S Pacific or Atlantic & Pacific if open) I propose to go out that way, by the Atlantic & Topeka & Santa Fe R-R., per California from end to the other, returning via Salt Lake City etc. by Union Pacific.

I remember when you were with us you expressed the wish I might do this any thing for the work's sake. It did not seem likely then, but thanks, under Providence, to the kindness of friends, it is made practicable, and I want to make the most of it for the work's sake & the Master's. Any hints you can find time to give, I shall highly appreciate.

Yours fraternally

J. H. Kellogg.

Dear Sir + Brother.

I write you on several subjects, which I hope you will find it convenient to give attention at once. We are notified recently by the Treasurer of Home Board that the expenses as incurred in running the school here could not be paid in future. This was a great surprise, and it was a long time before we could make up our minds that it was really meant for this school. We feeling that we had done our full part of the business in getting the money here from Albuquerque by express at considerable expense. To ourselves, oft times demying ourselves, that we might each week pay off our help, and keep the school running as smothly, and economically as possible. Worn out ourselves with double service continually we had just employed an American cook at forty dollars per month, when we received what seemed to us singular news. Singular in that it was so very different from what we had anticipated. Our best efforts have been made, and from my standpoint of judging, our success is without parallell. Our work will bear inspection, and as you know has been invited and urged both by our Board and the 2nd Department.

Our school is paying its way, and it is difficult for us to understand how we are to get on without more help and greater expense. We are very closely confined. Our duties are numerous and of great variety, and all are pressing.

Mrs Eastman has not come yet, although she has been expected for a long time. Shall we give her the position of Matron if she come. Please let us know definitely on this point, as we shall not feel at liberty to make any contract with any one not knowing exactly what is meant by "not allowing expenses in future". We have nothing for the children except Bread and meat. We understand there is provision on the way. We think we must vacate until we hear from you, and get some salt. Soap. Sugar. Coffee + some change of food for the children. A week will give us from March 1st only the usual time allowed all schools the first week in April, and in that time we hope to hear from you, also to have an opportunity of getting in a little supply of wood, of which we are sadly in need. (Mr Eastman having taken the team again) In the week or ten days vacation some changes can be made in the building very essential to our comfort, and we hope to hear in the same time that Mr Eastman has received Provision and clothing for the children. There is nothing here to ~~help~~ aid us, and so much to hinder and annoy that we are surprised oftimes at the success of the effort and

can only wish it were possible for us to do more for these people who are so willing to learn and so easily managed about the house and school. Our school is very promising. There is much to encourage and little to annoy in the school work. Our Roll is eighty-two. our average for this quarter will be over fifty. We are out of shoes and stockings. and subject to sudden cold snaps. The children do much work about the house We carry the water some distance the Pumps being frozen. and we dislike to have children carry water when snow is on the ground in their bare feet.

Very Sincerely.

Mrs. J. D. Perkins.

Now if we are to continue on Bread & Meat and receive no money for [illegal] expenses we would like to know in time [illegal] am sure if our destitution and our work was generally known. and effort would be made by some churches & know to relieve our wants which are of a painful character in cold weather.
